### Re: Application for the position of Healthcare Assistant

Dear Hiring Manager,

I am excited to apply for the Healthcare Assistant position at NHS. With over three years of experience in patient care, I am passionate about supporting patients and contributing to the outstanding care NHS is known for.

Currently, at St. Mary's Hospital in London, I provide hands-on support to patients with daily activities such as feeding, bathing, and mobility, while closely monitoring vital signs and ensuring their safety. Working as part of a team, I've developed a proactive approach to patient care, ensuring comfort and dignity for every person.

Previously, at Royal General Hospital in Birmingham, I gained experience across surgical, medical, and geriatric units, supporting patients' rehabilitation and maintaining accurate medical records. This role strengthened my adaptability and commitment to delivering quality care in diverse environments.

I am certified in First Aid, Basic Life Support, and safeguarding vulnerable adults and children. Alongside my technical skills in medical equipment operation and infection control, I take pride in building trust with patients and their families, making their healthcare journey as positive as possible.

Being a part of NHS would allow me to bring my compassion and dedication to a team that shares my values. I am eager to contribute my communication skills to support patients and help NHS continue delivering exceptional healthcare.

Thank you for considering my application. I look forward to the opportunity to discuss how I can support your team.

Sincerely,  
Sarah MacDonald
