

## NHS

London, United Kingdom, 24 May 2024

### ***Re: Application for the position of Medical Assistant***

Dear Hiring Manager,

I am writing to express my interest in the Medical Assistant position at NHS, which I found listed on your website. Currently employed as a Medical Doctor at St. Mary's Hospital in London, I am excited to pursue opportunities within NHS following my recent relocation.

In my current role as a Medical Doctor, I have developed strong skills in patient care, multidisciplinary collaboration, and effective communication. My experience includes managing a high-volume patient load, with an average of 40 patients per day, addressing a variety of medical needs such as acute illnesses, chronic disease management, and preventive care. I am committed to delivering high-quality and compassionate care to every patient.

In my previous role as a Junior Doctor in the Emergency Department at the Royal Hospital in Birmingham, I handled a diverse range of emergency cases, including trauma, cardiac emergencies, and acute illnesses. I consistently achieved swift triage times, ensuring patients were evaluated within 10 minutes of arrival. My efforts in process improvements led to a 40% reduction in door-to-treatment time, enhancing patient outcomes and efficiency. Additionally, my adherence to infection control protocols significantly reduced COVID-19 transmission rates by 95%.

I am proficient in electronic medical records management, clinical equipment oversight, diagnostic test interpretation, and patient care procedures. I am enthusiastic about the opportunity to bring my skills and experiences to the NHS team, contributing to the exceptional care and support NHS provides to its patients.

Thank you for considering my application. I look forward to the opportunity for an interview to discuss how my background aligns with the requirements of your organisation.

Sincerely,  
Ali Ahmed
