Personal profile

Qualified landscape architect with over 10 years of experience in planning, designing, and overseeing the development of outdoor spaces. Skilled in using computer-aided design to create functional, practical, and sustainable spaces that inspire. Seeking to apply strong design and project management skills to supervise the development of external spaces and facilitate the delivery of projects.

Hard skills

Agile project management, sustainable design and sketching, building regulations, technical drawings, landscape planning, green infrastructure design, stakeholder engagement, horticulture, renewable energy systems, urban agriculture

Technical proficiencies

GIS

AutoCAD

Rhino 6

Autodesk Revit

Civil 3D

Adobe Creative Suite

Certifications

- Building Design and Construction, LEED, 2023
- Permaculture Design Certificate, PDC, 2021
- Certified Landscape Architect, CLARB, 2019

Work experience

Senior Landscape Architect

2018 - Present

AECOM

London, UK

Applied green design thinking to manage high-profile urban projects associated with public spaces, parks, and transport infrastructure. Liaise with cross-functional teams, including fellow architects, project managers, and engineers to ensure project delivery in a timely and cost-effective manner. Present design concepts with technical drawings and cost estimates to clients, community groups, and local authorities.

- Secured planning permission for a major urban regeneration project, delivering £10M in value to the client.
- Awarded the 'Best Green Infrastructure Project' by the Landscape Institute for designing a sustainable transport corridor.
- Co-presented project presentations and proposals to clients.

Assistant Landscape Architect

2015 - 2018

LDA Design

Edinburgh, UK

Collaborated with senior landscape architects to plan, design, and implement sustainable landscape design projects for residential, commercial, and public spaces. Worked closely with locals and community members and assisted with scheduling, budgeting, and environmental reporting. Promoted from assistant to Junior Landscape Architect within two years.

- Created technical drawings and specifications using AutoCAD.
- Won a competition for designing a public park, securing £1M in funding for the client.
- Developed a sustainable planting strategy for a commercial project and reduced maintenance costs by 30%.

Education

Master of Arts in Landscape Architecture, University of Edinburgh 2011-2013

Bachelor of Science in Architecture, University College London, 2011
