

# David Hill

## Personal details

Name **David Hill**  
Address **London, United Kingdom**  
Phone number **+44 1214960508**  
Email **example@cvmaker.uk**

## Profile

Highly skilled and dedicated radiographer with 10 years of experience in providing accurate and compassionate diagnostic imaging services. Proficient in utilising advanced medical imaging technology to aid in the diagnosis and treatment of various medical conditions. Committed to patient safety, privacy, and delivering high-quality care.

## Skills

Medical Imaging Techniques, Radiation Safety, Anatomical Knowledge, Patient Positioning, Imaging Software (PACS, RIS), Quality Control, Radiographic Technique Optimisation, Documentation and Reporting.

## Work Experience

### **Senior Diagnostic Radiographer, Manchester General Hospital, Manchester UK | 2016 - Present**

Lead team of radiographers and oversee daily operations in the radiology department, ensuring efficiency and adherence to best practices. Perform complex diagnostic imaging procedures, including MRI, CT, and fluoroscopy, while ensuring patient comfort and safety. Collaborate with multidisciplinary teams to provide precise and timely radiographic assessments, contributing to accurate patient diagnoses and treatment plans.

- Oversaw the successful upgrade of imaging equipment, reducing downtime by 20% and improving overall system reliability, contributing to enhanced patient care and diagnostic capabilities.
- Established a comprehensive training program for junior radiographers, resulting in a 30% decrease in errors and a significant improvement in overall team competence.

### **Junior Radiographer, Central Medical Clinic, Liverpool, UK | 2013 - 2016**

Assisted senior radiographers in conducting X-rays, MRI scans, and CT scans on patients across various medical specialities. Ensured accurate patient positioning and image quality, minimising the need for repeat procedures. Collaborated with healthcare professionals to schedule and prioritise imaging requests.

- Secured a junior position after completing an apprenticeship.
- Gained experience in radiation protection and safety measures, ensuring a safe working environment for both patients and staff.
- Participated in community health fairs to promote awareness of radiography services, actively engaging with the public and fostering a positive department image.
